

FEKET FLEXP & NARROW WEB WATER COOLED LED CURE 9050 SERIES

SPECIFICATION	
Curing Length	Adjustable Per Step
Electrical Output	90W/cm
Optical Power Output	35W/cm
Wave Length	365nm,385nm,395nm
Supply Voltage	380-400V
Led Output	Dimmable up to 100%
Cooling system	Water Cooled

ADVANTAGES

- Feket led uv curing systems offer higher print quality, faster and more reliable curing process.
- According to the classical system, eliminates the costs of spare parts.
- Be able to print on surfaces thinner and heat sensitive.
- Total Energy saving of 4-6 times.
- High performance for web applications.
- Curing width can be adjusted by user.
- Leds lifetime over 20,000 hours.
